All Receipts

The Fast, Simple & Secure Route to
DIGITAL RECEIPTING & it's FREE

NEW "AllReceipts is a FREE DIGITAL RECEIPTING SERVICE that uses the Cloud & mobile App to bridge the gap between the retailer & shopper."

AllReceipts

The fast, secure and easy route to digital receipting

The NEW, FAST & LOW COST ROUTE to DIGITAL RECEIPTING for Retailers

AllReceipts is the new Star Cloud Solution providing Retailers with an "instant" Digital Receipting Service for their customers. No Emailing required.

AllReceipts is FREE of CHARGE, simple to install and works "above" the retailer's software. All you need is any of Star's TSP100 printers linked to the internet, to send an image of the receipt and coupon to the AllReceipts App on your customer's phone – no email address required!

Valuable Cloud based Reporting Tools for Retailers

have also been included, plus:

- ▶ **Star's Device Management Tool** provides real time status across the installed base of printers including different locations with refreshed error status notification on a comprehensive cloud based dashboard.
- ▶ **"Instant" Customer Satisfaction Survey** which the customer completes while "claiming" the receipt. The Device Management Data & Survey Tools will allow retailers to drill down to the POS station involved and even help highlight staffing issues.
- ▶ **Increased Coupon Redemption** customers will no longer have to remember receipts and will be grateful you have made the coupon so simple to use, including checking redemption dates.

▶ **Zero development** is needed as AllReceipts is enabled within the Star printer driver and is triggered by printing a traditional receipt. Working independently of a retailer's existing POS software, it automatically generates and securely sends an image of the receipt and coupon (where relevant) to the cloud until claimed.

Currently AllReceipts works with TSP100 using the Windows futurePRNT driver supporting Windows 7 onwards. SDKs for iOS and Android will follow soon.
