

# ⇒ STAR PassPRNT

**Introducing PassPRNT from Star Micronics, a sophisticated print data relaying application available for Android & iOS software developers**

PassPRNT effectively receives data from an application such as Filemaker Go or any web browser including Safari / Chrome using a URL scheme to then print on a Star **Bluetooth (Classic or BLE), LAN / WLAN or USB** printer. Star PassPRNT supported models include:

- |                     |                |   |  |
|---------------------|----------------|---|--|
| <b>58mm models</b>  | <b>Mobile</b>  | SM-L200, SM-S220i, SM-S230i   |  |
| <b>80mm models</b>  | <b>Mobile</b>  | SM-T300i  |  |
|                     | <b>Desktop</b> | BSC10 (USB/LAN), FVP10 (Bluetooth/USB/LAN), TSP100III (WLAN/ /LAN), TSP654II (Bluetooth/USB/LAN), TSP743II (Bluetooth/USB/LAN) (Receipt, Label & Ticket up to 0.15mm thick media) |  |
| <b>112mm models</b> | <b>Mobile</b>  | SM-T400i  |  |
|                     | <b>Desktop</b> | TSP847II (Bluetooth/USB/LAN) Receipt, Label & Ticket up to 0.15mm thick media)  |  |

with other Star printer models to follow.

Star's PassPRNT companion App allows printing to both ranges of Star Mobile & Desktop printers from a web browser or any application supporting the URL scheme.

The simple & user-friendly "one tap" request to print from an device to a Star printer is now possible. The operating system is capable of automatically switching from a host application to the PassPRNT application making this a valuable, time-saving tool for any system integrator / developer.

**NEW PDF print & Black Mark capability from early Qtr 4 2016 with Star's Digital Receipting platform AllReceipts™ included.**

Star Micronics' PassPRNT will be available on the App Store / Play Store

September 2016
