# Tablet POS

## Connectivity at all levels

**Star believes it is your choice that is important and we have to provide the printer for the Tablet solution you want to use, according to your budgets and in-store/out-of-store needs.**

Star is widely acknowledged as the leading hardware innovator in the move from the more expensive traditional POS terminals to Cloud connected Tablet POS featuring lower cost hardware that can be mobile or fixed and easily upgradable as the business grows.

Coupled with Cloud connected software that is flexible, low cost and progressively scalable according to market developments and individual business needs, Tablet POS is being increasingly chosen over traditional POS across retail and hospitality with Star printers, once again, producing the final receipt.

*The printers detailed here will work with the Tablets listed – just check that your software is compatible – either contact Star (sales@star-emea.com) or your software provider.*

### Colour – it's your choice!            *Ultra White or Black Grey*

**Today's hardware has to match the tablet of your choice and Star's huge range does just that.**

The **Ultra White Range** is specifically designed to complement the latest Apple, Android & Windows Tablet style and make your POS transactions stand out…

*…or choose the more traditional dark look*

#### Apple iOS Tablets

*Probably the most popular choice of tablet to date* for retail and hospitality for many reasons. Apple's stylish design and proprietary operating system has created an environment for a wide choice of Cloud connected POS solutions. Typical printer communication has been achieved via Bluetooth and Ethernet/LAN. However, Star's position as the leading innovator for Tablet POS has resulted in the introduction of 2 UNIQUE targeted iOS solutions; **TSP654II AirPrint™** and **TSP143III USB**, the only printer able to 'connect' and charge via the Apple lightning cable.

#### Windows Tablets

*A great choice for many as it is the fastest route to mobile from the current in-store operating system.* Windows has been traditionally the most successful OS for in-store business to date and provides IT managers with existing infrastructure for remote management etc. Star provides a wide range of drivers for Windows including JavaPOS & OPOS support for your chosen POS application with easy install for Bluetooth, WiFi, Ethernet/LAN and USB use – just check your Windows tablet provides additional charging via USB.

#### Android Tablets

*Probably the lowest cost range of tablet solutions available,* however not the most popular to date due to the many variations of Android installations with fewer Android developers creating retail and hospitality cloud based software solutions. Star Bluetooth, WiFi, Ethernet/LAN and USB printers are available – just check your Android tablet provides additional charging via USB.
