

# STAR PassPRNT

**Introducing PassPRNT from Star Micronics, a sophisticated print data relaying application available for Android & iOS software developers**

PassPRNT effectively receives data from an application such as Filemaker Go or any web browser including Safari / Chrome using a URL scheme to then print on a Star **Bluetooth (Classic or BLE), LAN / WLAN or USB** printer. Star PassPRNT supported models include:

**58mm** models

**Mobile** SM-L200, SM-S220i, SM-S230i  
**Printer & Cash Drawer** mPOP

**80mm** models

**Mobile** SM-L300, SM-T300i  
**Desktop** FVP10 (Bluetooth/USB/LAN), TSP100III (Bluetooth/USB/WLAN/LAN), TSP654II (Bluetooth/USB/LAN), TSP743II (Bluetooth/USB/LAN) (Receipt, Label & Ticket up to 0.15mm thick media)

**112mm** models

**Mobile** SM-T400i  
**Desktop** TSP847II (Bluetooth/USB/LAN) Receipt, Label & Ticket up to 0.15mm thick media)

Star's PassPRNT companion App allows printing to both ranges of Star Mobile & Desktop printers from a web browser or any application supporting the URL scheme. The simple & user-friendly "one tap" request to print from an device to a Star printer is now possible. The operating system is capable of automatically switching from a host application to the PassPRNT application making this a valuable, time-saving tool for any system integrator / developer.

**NEW Black Mark capability with Star Cloud Services Digital Receipting platform included.**

**PassPRNT now available with HI X Connect Interface for Star's range of TSP654II, TSP743II and TSP847II receipt, ticket & label thermal printers.**

Star EMEA Star Micronics' PassPRNT is available on the App Store / Play Store. Nov 2017
