

Point of Sale Solutions

Star Micronics is one of the world's largest POS printer manufacturers. Its portfolio includes a wide range of Point of Sale printing solutions, tablet displays and cash management solutions for retail and hospitality.

Founded in Shizuoka, Japan in 1950, Star has broadly expanded to establish sales offices and manufacturing facilities across the Americas, Europe, Asia and Australia, enabling it to deliver unparalleled product service and support to customers on a universal scale.

As one of the first companies to invest in manufacturing Point of Sale printers, Star Micronics has been supporting retailers for over 40 years to deliver efficient, reliable store solutions.

Star's innovative product designs offer the flexibility needed to integrate both traditional as well as the very latest tablet and cloud-based POS and hospitality systems in a rapidly changing market.

Committed to sustainability

As a truly global company, the Star Micronics brand has become a known, trusted and respected name. Heavily involved in IT-related technologies and the manufacturing and assembly of miniature high-precision devices, Star Micronics acknowledges the importance of engaging in environmental management activities and has invoked eco-friendly practices as an integral part of its operations. This philosophy forms the basis of its efforts to carry out operations in harmony with the global environment and play an active role as a responsible member of society. Star is dedicated to environmental responsibility with initiatives such as eco-friendly product designs and packaging materials, efforts to reduce electronic waste, the introduction of linerless label printers to minimise waste and many more.

Focused on innovation

Alongside innovative product design, Star provides the very latest technologies and services for today's modern retail and hospitality environments. With a fundamental focus on industry partnerships, Star works closely with the largest independent software vendors and system integrators globally to ensure the very best customer experience when integrating Star solutions.

Responsive to industry trends and digital transformation, Star's solutions provide the flexibility needed to integrate with the very latest tablet, cloud and omni-channel POS applications. Star's innovative technologies and services such as CloudPRNT™, SteadyLAN™ network tethering and StarPrinter.Online ensure enhanced connectivity and device management capabilities in store.

MCP21LB

TSP100IIU+

- Entry-level 200mm/s USB receipt printer
- 80mm paper width with paper saving features
- Easy-Load “Drop-In & Print” paper loading
- Internal power supply with power cable
- Unique *futurePRNT*™ software included
- 4 year warranty including head and cutter

TSP100III

- Best selling direct thermal receipt printers
- Internal power supply with power cable included
- Fast 250mm per second print speed
- USB, Ethernet LAN, Wireless LAN and Bluetooth models
- Unique *futurePRNT* software included
- 4 year warranty including print head and cutter

futurePRNT Software

Star's *futurePRNT* free-of-charge value-added software available on TSP100IIU+ and TSP100III models includes unique set-up and marketing tools for adding logos, coupons and for easily modifying printer settings for multiple printers.

TSP100IV

Direct Thermal, Wireless, Bluetooth, 250 mm/s, 80 mm paper width, Cloud connected

- New generation Cloud connected POS receipt printers
- Compact design with internal power supply. Horizontal or vertical operation.
- 250mm/s print speed with high quality guillotine cutter
- 80mm paper width (58mm paper with included paper guide) and 49µm thin paper support
- Ethernet LAN, USB-C / USB-A on all models. Additional Bluetooth and WLAN connectivity on TSP143IV X4 models
- USB-A with Android Open Accessory (AOA) support for direct communication “Data & Charge” with compatible Android tablets and mobile devices or control of USB peripherals (scanner, display etc.).
- Simple WLAN set-up on TSP143IV X4 models
- Star CloudPRNT technology on all models for online receipt and order printing
- 4 year warranty including print head and cutter

Kiosk Printers

With over 35 years' experience manufacturing dedicated kiosk printers and mechanisms, Star offers an industry leading range of reliable and innovative kiosk solutions with the specialist features necessary for self service and self checkout applications. Working together with many of the world's most successful kiosk builders and integrators, Star's highly experienced Hardware Engineering Team provide the technical expertise and flexibility required to develop customised products for the most innovative self service solutions in retail, hospitality, transport and ticketing.

Packaged Kiosk Printers

TSP800II

Direct Thermal  180 mm/s  

- Versatile packaged kiosk printer for receipts, tickets or labels with "Drop-In & Print", easy paper loading
- Unique 112mm paper width, 104mm width – on paper stock up to 0.15mm thick.
- Scales from A4 to A6 size, saving paper. Ideal for hotel check-in, trade invoices etc.
- Internal or External Paper Feed Paths
- Wide range of connectivity

TSP700II

Direct Thermal  250 mm/s  

- Versatile packaged kiosk printer for receipts, tickets or labels with "Drop-In & Print", easy paper loading
- 80mm / 3" paper width on paper stock up to 0.15mm thick
- Internal or External Paper Feed Paths
- Wide range of connectivity
- Optional LED bezel

mC-Print3

Direct Thermal   250 mm/s  

- Fast, 80mm, 250mm/second, front-loading thermal receipt printer
- Compact cube design, drop-in paper loading
- Paper Near End, Paper End and Cover Open Sensors
- USB, Ethernet LAN, USB-C, Bluetooth, Wireless LAN interfaces depending on model

Open-Frame Kiosk Printers

NEW

SK5-31

- Designed for simple installation, the versatile SK5 includes all the necessary features for reliable, unattended kiosk and self-service applications
- Ultra compact: 116(W) 143.5(L) x 76.1(H)
- 203dpi print head for high quality text, graphics and barcodes including 2D and QR codes
- Fast 250mm/second print speed
- 12-position paper roll holder included as standard for versatile paper loading on right or left side
- Integrated presenter unit
- 2 models: Serial / USB 2.0 or Ethernet LAN / USB 2.0
- Highly reliable print head and Autocutter (full cut) 2 million cuts
- Adjustable 54 -82.5 mm paper widths
- 59 – 150um paper thickness for receipts, tickets and vouchers
- Anti-jam and print assistance technology
- Document retract function
- Paper Near End, Paper End, Black Mark and Presenter sensors
- Star SDKs and support for Windows, Linux, Android, OPOS, JavaPOS

Sanei kiosk printers

Available in 2", 3" and 4" widths, the Sanei range of barcode, ticket, receipt and label kiosk mechanisms offer fast, high quality 203 dpi printing at speeds up to 250 mm/second for compact, slimline kiosks.

SK1-211/311/221/321

The SK1-211 and SK1-311 2" / 58mm and 3" / 80mm series provides dependable, maintenance-free printers that have a fast print speed of 250mm/sec with 203 dpi resolution. The printers come in either standard format (horizontal orientation) with or without presenter, and vertical format with or without presenter. The SK1-221 and SK1-321 models have a paper tray for Drop-in paper loading.

SK4-21/31

The SK4-21 and SK4-31 2" / 58mm and 3" / 80mm Series offers a compact and versatile entry level solution for small space applications with a choice of 3 paper roll positions for simpler installation. Supporting printing up to 150mm/sec, these models have an LED Bezel option and anti-paper jam Bezel option.

SK1-311 SK

The new SK1-311SK 3" / 80mm re-stick liner free kiosk printer is the latest addition to Star's popular Sanei kiosk printer range. Designed to print repositionable, variable length thermal labels, the SK1-311SK eliminates any unused white space on labels which helps paper saving. With its open chassis design, the SK1-311SK is perfect for integration into a variety of kiosk terminals for the food and travel industries or any self-service application. All SK1-311 models come with RS-232C and USB interfaces which integrate with a wide variety of kiosk solutions.

SK1-41

The SK1-41 4" / 112mm series provides dependable, low maintenance printers that have a fast print speed of 150mm/sec with 203 dpi resolution. The thermal kiosk printers come in standard format (horizontal orientation), with or without presenter.

Mobile printers

SM-L200

- 2" / 58mm portable receipt / label Printer
- "Drop-In & Print" easy paper loading
- Bluetooth 5.0 Low Energy (BLE) for connecting to multiple iOS, Android or Windows devices
- Compact & Durable Design (1.2m drop test)
- 13 hour battery life (printing at 5 min intervals)
- Optional charging cradle available

Direct Thermal 35 mm/s 58 mm

SM-S230i

- 2" / 58mm portable receipt printer
- High resolution printing 203 dpi. 80mm/second print speed
- Super compact & durable design (1.5m drop test)
- Auto connect pairing with Apple iOS devices
- Multiple LED status display
- 19 hour battery life printing at 5 minute intervals

Direct Thermal 80 mm/s 58 mm

SM-T300i

- 3" / 80mm portable receipt and label printer
- Rugged design with IP54 dust/splash proof certification
- 1.5m drop reliability
- MFi certified – pairs with iPad, iPhone as well as Android and Windows via Bluetooth devices
- 203dpi and 75mm/second print speed with fast throughput
- 31 hour battery life printing at 5 minute intervals

Direct Thermal 75 mm/s 80 mm

SM-T400i

- 4" / 112mm portable receipt and label printer
- Rugged design with IP54 dust / splash proof certification
- 1.5m drop reliability
- MFi certified – pairs with iPad, iPhone as well as Android and Windows via Bluetooth devices
- High resolution 203dpi and 80mm/second print speed with fast throughput
- 35 hour battery life printing at 5 minute intervals

Direct Thermal 80 mm/s 112 mm

Barcode Scanners

NEW

BSD-40U

Presentation

- Reads 1D and 2D Barcodes
- Captures high-density, high-volume and even distorted barcodes on labels and screens
- Simple switch to toggle between paper and screen mode
- Plugs directly into any POS system, including STAR POS printers
- Superior motion tolerance (2,5m/s)
- Large field of view (horizontal 51°, vertical 32°)
- IP52-rated design and 1,2 m drop resistance
- Allows access to StarSCAN configuration utility to customise scanner functionality

BSH-20U

Handheld

- High-performance CPU captures high-density, high-volume and distorted barcodes
- Plug and play with iOS, Android, and Windows
- Scans on paper, uneven media, or screen
- 5 scanning modes (level, sense, continuous, pulse, batch)
- Access to StarSCAN configuration utility for customised functionality
- Ergonomic, IP42-rated design and 1.2m drop resistance

BSH-32U

Handheld

- Reads 1D and 2D Barcodes
- High-density, high-volume and even distorted barcodes on labels and screens
- Plugs directly into any POS system, including Star POS printers
- Communication via USB Cable
- 5 Scanning modes (trigger, sense, continuous, pulse and batch)
- Lightweight, comfortable design
- IP42-rated design and 1.5m drop resistance
- Scanner Stand included

BSH-20B

Wireless

- High-performance CPU captures high-density, high-volume and distorted barcodes
- Scans on paper, uneven media or screen
- Two forms of wireless communication: Bluetooth or USB dongle (included)
- 12 hours of continuous battery use
- 6 scanning modes (level, trigger, sense, continuous, pulse, batch)
- Lightweight, comfortable design
- IP42-rated design and 1.2m drop resistance

BSH-32B

Wireless

- High-resolution CMOS captures high-density, high-volume and distorted barcodes on paper or screen
- 12 hours of continuous battery use
- Two Forms of Communication: Connects directly to the host device via Bluetooth low-energy or can be wirelessly connected via the charging cradle
- High-Performance CPU: Can read and parse barcodes
- Access to StarSCAN configuration utility for customised functionality
- IP42-rated design and drop-resistant (1.2m)

starSCAN

StarSCAN, included with all Star Micronics scanners, is a Windows-based Utility compatible with iOS, Android, and Windows platforms. Users can tailor their scanning preferences and configure scanners to specific needs. Developers can further integrate it into applications using the provided SDK.

Cash Drawers

Star Micronics is proud to offer cash drawers for any budget or application. Whether you're looking for the smallest possible cash drawer or a robust cash drawer for a high volume of cash transactions, Star Micronics has the cash register drawer you need. Our focus is providing our customers with POS peripherals and accessories that respond to the changing nature of the POS market.

CD4 Series Cash drawers

- Robust, hard wearing cash drawers with reinforced top for added strength
- CD1416 14" models and CD1616 16" models. 4 note / 8 coin or 8 note / 8 coin configurations with front note slot
- RJ12 printer connection with cable included
- Reliable roller assembly design and operation
- High quality design and finish with painted drawer interiors and stainless steel front
- Available in black or white

CD4-1416 Medium size

CD4-1616 Large size

Folding hinged key

CB2002 Series Cash Drawers

- Entry level cash drawer series
- 16" model with 8 upright note / 8 coin or 4 flat note, 8 coin combinations and front note slot
- 3 position key lock with drawer release
- Options: Under desk Z brackets, Lockable cover, Note Holder Bracket and Note Divider
- Available in black and charcoal grey

mPOP

- Combined receipt printer and cash drawer compatible with a wide range of retail, hospitality and mobile payment software

mUnite Tablet Stands and Mounts

Star Micronics is proud to offer both function and style with its commercial grade mUnite POS solution stands, built to accompany Star's POS printer range. The durable steel stands are easy to set up and are available in either black or white to match existing hardware. The mUnite stands maintain a clean design while hiding all the cables that keep devices connected, routing power supplies under the counter to recapture counter space. These durable steel mounts, kiosks and stands are compatible with Star's Universal mEnclosure, or any enclosure that uses universal VESA mounting.

Kiosk Stands

With the mUnite EZ Desk Kiosk and Floor Kiosk stands, Star Micronics has created two sturdy yet easy-to-move tablet displays built for any self-service or customer engagement application. These stands are free-standing with weighted bottoms to keep them firmly in place. Presenting an attractive minimalist design, Star's kiosk stands can be used in any retail or hospitality environment, allowing customers to check in or place orders independently, or be used for visitor management/customer information.

Desktop Stands

Freshen your point-of-sale with Star's wide selection of mUnite desktop tablet stands. Keeping cables together and off the checkout counter, these upscale stands are made to house and protect a variety of Star printers, providing stability and style. They use universal VESA mounting to secure the tablet of your choice, giving the freedom to tilt the screen while including room for a second customer-facing option. Stylishly space-saving, Star's desktop stands present a clean and attractive look to your customers.

Mounted Stands

Star Micronics has created multiple stylish tablet mounts to free up and declutter workspace, while keeping valuables secured in one area. They attach to most walls and countertops with everything needed to get set up included. Incredibly modern and space-saving, these tablet mounts are perfect for online ordering for the restaurant or QSR industry, retail, hospitality industry, or any establishment where tablets are regularly used and can be stationary. Tablets are well-protected and easily accessible while out of the way in busy environments.

Accessories

SCD222 Customer Display

- 2 lines of graphics
- 141 x 79 x 60mm / 210g
- USB connection with Star hub model printers
- Available in black or white

mC-Sound Kitchen Buzzer

- 16 programmable melodies available
- Sounds accompanied by LED light for visual confirmation
- Easy to install inside or outside of printer

MCW10 WLAN Module

- Connect up to two IP printers (or other devices)
- Easy Setup: Can be easily installed using Star Quick Setup Utility
- Provides printers with wireless LAN support

Star 1D Scanner

- Handheld 1D barcode scanner
- USB connection with Star hub model printers
- Available in black or white

Mobile Charging Cradle

- Charges Star SM-L200 portable printer
- Works with Micro USB cable

POS Consumables

- Premium thermal receipt paper
- Die cut and liner-free label media
- Star ribbons

Star Micronics' innovative and unique printing technologies enable users to print to Star printers via the latest interfaces and protocols. By offering cloud-based printing, online purchasing options and compatibility with the latest devices, retail stores and restaurants can grow their business to expand to a larger market.

CloudPRNT works with the online ordering service to store and create print jobs as well as communicate status with the printer. Cloud ordering services post orders using a JSON format while the Star CloudPRNT printer will pull these orders on a defined interval. Star's CloudPRNT technology provides benefits to both restaurant and retail stores by eliminating the need for an extra tablet to send an online order to the printer. Instead, the ordering service will be able to communicate directly with the printer. The new **CloudPRNT Next** technology delivers even more rapid and efficient cloud-based printing, instant printing for POS applications and reduces network load for improved performance and reliability.

Star's SteadyLAN™ technology is the market's first solution to provide control of the POS printer and attached peripherals as well as network tethering to iOS, Android and Windows tablets and mobile devices via the Ethernet port of the printer. Simply by connecting a tablet to the Star printer via USB cable and connecting the printer to the internet via a wired LAN connection, the tablet is able to connect to the internet without WiFi communication. At the same time, the tablet can communicate with the printer via USB or LAN and the printer will also charge the tablet.

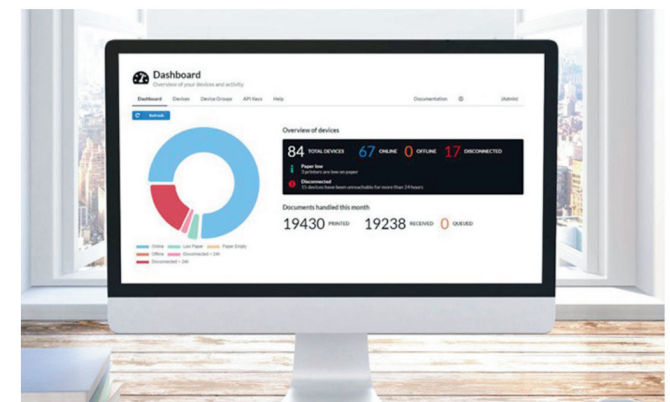

StarPrinter.Online is a Cloud service enabling receipt and order printing and device management from Cloud based software with minimal set-up time and cost with near zero integration.

Made for
Apple iPhone | iPad

Responding to the need for cross-platform development, Star has developed StarXpand SDK, initially targeting React Native but scheduled to later include other native and alternative cross-platform environments, to help reduce the development time and maintenance costs associated with printer connection.

Paper Thickness	0.059 – 0.15mm 0.10mm with presenter	0.059 – 0.12mm 0.075mm with presenter	0.059 – 0.085mm	0.059 – 0.15 mm	59 to 150um / 0,059 – 0,15 mm
Media Presentation	Front exit with presenter and bezel options	Front exit with presenter options	Front exit with bezel options	front exit with presenter and bezel options	Presenter with Document Capture
Sensors	Black Mark, Gap, Paper End, Paper near end	Black Mark, Gap, Paper End, Paper near end	Black Mark, Gap, Paper Near End	Black Mark, Paper Near End, Paper End	Paper Near End Sensor, Paper End Sensor, Black Mark Sensor, Presenter Sensor
Connectivity	Dual interface Serial and USB	Dual interface Serial and USB	Dual interface Serial and USB	Dual interface Serial and USB	SK5-31S : Serial, USB2.0 SK5-31W : USB2.0, LAN (10Base-T/100Base-T)

Label Printers

Star Printer Series	mC-Label3 	TSP143IV SK 	TSP800II 	TSP700II 
Description	High quality, versatile direct thermal label printer	Direct thermal linerless label printer	112mm receipt, label, ticket and kiosk printer	80mm receipt, label, ticket and kiosk printer
Application	High, medium and low tack linerless labels, die-cut labels, continuous labels, receipts	Low tack linerless labels	Receipts, die-cut labels, tickets	Receipts, die-cut labels, tickets
Max.Print Speed	180mm/sec	180mm/sec	180mm/sec	250mm/sec
Resolution	203 dpi	203 dpi	203 dpi, 406 x 203 dpi selectable	203 dpi, 406 x 203 dpi selectable
Columns	Max. 64 col	Max. 64 col	Max. 104 col	48 / 64, 53 / 71 col
Autocutter	Full or partial cut (guillotine)	Partial cut (guillotine)	Full or partial cut (guillotine)	Full or partial cut (guillotine)
Paper Width	25.4mm to 80mm adjustable	40mm, 58mm, 80mm	112mm	80mm standard, 82.5, 58mm
Paper Thickness	0.049mm – 0.154mm	0.065 to 0.098mm	0.065 – 0.15mm	0.065 – 0.15mm
Sensors	Taken sensor, Paper jam sensor, GAP/Black mark sensor, Paper end sensor, Cover open sensor, Paper position sensor, Paper width sensor	Paper Taken Sensor for queuing labels	Black Mark sensor, Paper end sensor, Paper Near End sensor(horizontal & vertical) , Cover Open sensor	Black Mark sensor, Paper End sensor, Paper Near End sensor (horizontal & vertical), Cover Open sensor
Connectivity	USB-C (Power Delivery) with Android AOA, USB-A x 2 (Peripherals connectivity), Ethernet LAN (SteadyLAN), Star CloudPRNT, Bluetooth (MCL32CBI model), WLAN (with optional MCW10), Cash drawer / buzzer connection	USB-C, Ethernet LAN, USB-A x 1. Star CloudPRNT Technology for Cloud based software. Additional Bluetooth and WLAN on TSP143IVSK X4 model	Plug-in Serial (HD03), 9-Pin Serial (HNO3), Parallel (HC03), USB (HU07), Ethernet (HE07), HI X Connect with CloudPRNT (HI01X)	Plug-in Serial (HD03), 9-Pin Serial (HNO3), Parallel (HC03), USB (HU07), Ethernet (HE07), HI X Connect with CloudPRNT (HI01X)
