

Solutions for Hospitality

Connectivity at every level

Our comprehensive hospitality solutions are built on strong partnerships with leading hospitality software and online ordering platforms, ensuring seamless integration for businesses. As a single manufacturer for essential hospitality hardware—including printers, barcode scanners, tablet stands, and cash drawers—we provide a unified, reliable solution designed for fast-paced environments.

Our multifunctional printers streamline operations by supporting front-of-house, kitchen, online ordering, and kiosk applications through a single SDK, reducing integration time and costs. Additionally, our free CloudPRNT technology and other innovative solutions empower businesses to expand their revenue streams with efficient online ordering and self-service options.

Cloud printing from web based software and online ordering apps with Star CloudPRNT
