Solutions for Retail

Connectivity at every level

Star is a leading manufacturer of high quality retail hardware. Working with retailers worldwide, we understand the need for fast, efficient transactions at the point of sale and have developed a range of reliable, innovative POS and label printers, cash drawers, barcode scanners and POS accessories to enable retailers of all sizes to take advantage of the latest technology.

From fast, thermal receipt printers and compact barcode label printers to reliable kiosk and self-service solutions our innovative range offers high quality, reliable output with minimal running costs.

Our multi-platform support and industry-leading SDKs allow simple integration of Star products with all major software platforms for local, network, tablet and cloud-based systems.

Omnichannel POS Printers

Star manufactures high-performance printers designed for seamless integration across POS, order management, and self-service kiosk environments. Whether printing customer receipts, e-commerce orders or self-service tickets, Star's solutions deliver fast, reliable, and high quality performance for any application.

Additional Retail Hardware

To complement its existing line of receipt and label printers, Star has developed a one-stop-shop, offering a range of compatible POS peripherals.

Versatile 2D Barcode Scanners

- 2D scanners in presentation, handheld and wireless Bluetooth models
- The StarSCAN utility, compatible with iOS, Android, and Windows, enables users to tailor scanning preferences
- SDKs available for seamless integration into applications

mUnite Tablet Stands and Mounts

- Adjustable universal mEnclosure tablet holders and bases
- Universal VESA mounting
- Clean cable management
- Easy to tilt for customer interactions
- Available in Black or White

Cash Drawers

- A range of durable and budget-friendly options for all transaction volumes
- Secure, reliable and easy to integrate
- Available in different sizes to match existing POS systems
- mC-Connect Drawer cash drawer controller converts any RJ12 drawer to a USB, Ethernet, Bluetooth or WiFi cash drawer

Approved Media

- Star offers approved paper and label rolls which ensure efficient printer operation and extend the life of the print head
- Less frequent paper changes thanks to longer media lengths
- A range of strong and re-stick linerless media approved with Star label printers

Star CloudPRNT Next and Star Micronics Cloud Services

Star's commitment to seamless integration for the cloud connected store continues with Star's next generation CloudPRNT Next technology and Star Micronics Cloud Services. Star's CloudPRNT Next technology is free of charge with Star's latest receipt and label printers, enabling the printers to print both locally and also directly from web-based apps and online ordering platforms

Star Micronics Cloud Services is a suite of powerful tools for integrating, monitoring and controlling connected Star devices via the Cloud

CloudPRNT *Next*

StarIO.Online

Reliable Cloud Printing

Star CloudPRNT Next technology allows receipt and label printers to print both locally and from web-based apps and online ordering platforms to improve efficiency in high demand environments

Printer and Device Control

Hosted on Star Micronics' Cloud platform, the StarIO.Online service empowers users of cloud-based applications to easily and efficiently control printing and manage devices through our Web API
